

SPECIAL CIRCUMSTANCES

Students from outside the European Union who are resident in Europe and **have completed at least one semester** in a French university, for a national diploma (except for French language courses) or in a European university, can refer to the [procedure for students from EU countries](#).

The university handles the educational part of the application; however, it also checks that the student is in the country legally.

Students from European Union countries (and thus French students) who have **studied outside the EU** are regarded as foreign students. They should, therefore, submit an [APPLICATION](#).
