

THIS SPECIAL ISSUE IS DEVOTED TO ALTERNATIVE ENERGY OF FRANCE AND FRENCH SPEAKING COUNTRIES

C O N T E N T S

<i>P. Saint-Gregoire</i>	
Forewords of the deputy editor-in-chief for France and southern french speaking countries, Guest-editor of the special issue	9
<i>P. Saint-Gregoire</i>	
Overview on fields related to renewable energies relevant for north-south collaborations (new perspectives of co-development)	11
Hydrogen economy	
<i>L.Aiche-Hamane, M.Belhamel, M.Hamane</i>	
Estimation of hydrogen production from wind power in the south of Algeria	21
<i>A. Bouzidi, N. Benramdane, M. Medles, S. Bresson, C. Mathieu, B. Khelifa, R. Desfeux, M. El Marssi</i>	
Structural and vibrational properties of spray pyrolysed molybdenum oxide thin films	26
Solar energy	
<i>S. Ben Ahmed, M.M. Tlili, M. Ben Amor</i>	
Optimization of an antiscaling treatment to prevent scaling of a solar desalination unit using evaporation-condensation principle	32
<i>J.L. Canaletti, G. Notton, C. Cristofari</i>	
New concept of solar air heater integrated in the building	39
<i>H. Chemani, B. Chemani</i>	
Terra cotta bricks in matter insulating and light by coal addition in an argillaceous mass	45
<i>A. El Jouni, R. El Bachtiri</i>	
A maximum power point tracking fuzzy logic controller for photovoltaic pumping system	50
Wind energy	
<i>S. Bousalem, R. Maouedj, B. Benyoucef</i>	
Optimizing the integrate output of a wind electric water pumping system	57
<i>A. Coustou</i>	
A major innovation: the vortex tower power stations (self secure vortex towers)	62
<i>R. Calif, R. Blonbou</i>	
Analysis of the power output of a wind turbines cluster in the Guadeloupean archipelago	68
<i>I.K. Dobrev, F. Massouh</i>	
Modeling of wind turbines using hybrid models	74
Small and micro hydro-power plants	
<i>M. Chennani, I. Salhi, S. Doubabi</i>	
Study of the regulation of a micro hydroelectric power plant prototype	79
Carbon nanostructural	
<i>K. Benrachedi, B. Chemani</i>	
Chemical and physical activation of olive-mill waste water to produce activated carbons	85

Basic problems of energy and renewable energy

L. Essaleh

Effect of the strong magnetic field on the Mott-variable range hopping parameters
in n-type copper indium diselenide 90

L. Essaleh

Mott-variable range hopping mechanism in n-type CuIn_3Se_5 95

M. Boukendil, A. Abdelbaki, Z. Zrikem

Numerical study of coupled heat transfers through a vertical cavity with alveolar walls 98

Energy and ecology

O. Curea, H. Camblong, A. Llaría, I. Vechiu, D. Marin

Increasing public awareness of renewable energies and electrical consumption reduction:
ESTIA's approach 103

H. Chemani, B. Chemani

Valorization of the sawdust for the improvement of the mechanical-physical properties
and obtaining a light ceramic product 111

L. Daoudi, M.E. Saidi

Floods in semi-arid zone: example of the Ourika (High Atlas of Marrakech, Morocco) 117

B. Djahed, Y. Amar, A.B. Kandouci, A. Taleb, S. Lebid, M. Anani

Evaluation of the Sidi Bel Abbes atmospheric pollution grade and its risks over health 124

F. Toumi (Benali), M. Benyahia, A. Rahmani, M. Aicha

Analyses failure reasons of the development schemes of the steppe
and role of *Tetraclinis articulata* vahl master in its eco-development 134

F. Toumi, A. Rahmani, M. Benyahia, M. Aroussi

Tetraclinis articulata regeneration (the Thuya of the Maghreb) and its resistance to human
caused deteriorations: case of fire 140

K. Boulaajoul, J.P. Dallas, S. Villain, J.A. Musso, M. Mesnaoui, A. Sedki

The differentiation of hospital waste incineration ashes an academic case: the Marrakech hospital 147

Environmental impacts associated with ocean thermal energy conversion 155

Information

OTEC - state of the art and present status 158

P. Saint-Grégoire

A climatic hell ... in paradise emergency call for the first climatic refugees 163

1st page of cover: the solar furnace of CNRS in Odeillo (South of France). A large parabolic reflector constituted of 9500 mirrors.
